

# Sharebank

**Learning and development network for patient and public involvement in health and social care research**

## **What is sharebanking?**

 It is a regional network whose members include researchers, patient and public involvement (PPI) managers, patients and members of the public.

 Members share their knowledge and experience of PPI across the network.

## **What are we offering?**

 Advice and guidance on how to create a Sharebank in your region.

 Support in developing a local model to suit regional partnerships.

## What are the benefits?

- ☀️ Creates opportunities to share your own learning on PPI with others, across organisations.
- ☀️ Provides a low cost, sustainable way for accessing local PPI training and resources.
- ☀️ Creates a collective knowledge of PPI to inform practice of PPI in research.
- ☀️ Builds a community of people with the common goal of helping each other.
- ☀️ Contributes to fulfilling Standard 3 (Support and Learning) of the [National Standards for Public Involvement](#).
